

MongoDB

```
mongod --replSet myReplicaSet --dbpath /Users/pumahes/Documents/MongoDB/data
```

```
mongod --port 27017 --dbpath /Users/bkedarn/Documents/MongoDB/data
```

How to Install MongoDB Inside Docker Container

```
docker run --name mongo-db-container -v "$PWD"/env/mongodb/data:/data/db -d mongo
docker exec -it mongo-db-container /bin/bash
mongo --version
use mongo-db-container
db.users.insert({username: "Bigbassroller", password: "secret-pw"})
show collections
db.users.find()
```
